

## PRINCIPLES

We believe that the use of Cannabis ought to be a matter of choice and not of law.

We believe that the prohibition of Cannabis is against the public interest.

We believe that the prohibition of Cannabis contravenes our Human Rights.

We believe that the prohibition of Cannabis inhibits the use of a beneficial source for all mankind.

We believe that the legalisation of Cannabis is a very important step that should be taken to benefit the people and their environment.

## AIMS

To hasten the full legalisation and utilisation of the Cannabis Plant for the good of the people of this world on a local, national and international level.

To secure the release of all prisoners convicted only of Cannabis offences and to ensure that all criminal records for Cannabis offences are expunged.

To encourage public and private research, into the many beneficial uses of Cannabis including industrial, social and medical uses for the good of all the people.

To halt all criminal prosecutions for the use of Cannabis as a social or private relaxant, including it's uses as a sacrament or in religious rituals.

To provide a voice for those in society persecuted and prosecuted for Cannabis activities that victimise none.

## PROPOSALS

That Cannabis and Cannabis products should be removed from the Irish Misuse of Drugs Act, thereby being legalised.

That the possession, cultivation and use of pure Cannabis and Cannabis products, be free from prosecution for all people.

That Cannabis be re-introduced into our society.

That high priority be given to the cultivation of Cannabis for the express purpose of the localised production of virtually cost-free fuels through the process of pyrolysis on Cannabis biomass, and as a source of fibre and hurd.

That a license for growing Cannabis be issued to those people who wish to pay the license fee, for either medical use or social use.

That provision be made to enable the setting-up of public establishments where the sale of Cannabis is permitted, under regulations.

That at least the same level of protection be given to the Cannabis consumer as is given to the consumers of other commodities: weights and measures, quality and more.

That all prisoners presently held only on Cannabis convictions or charges be released from custody without delay and that all criminal records for Cannabis offences be expunged.
